ANTIOCH'S INCOME NEARLY \$17,000, STATEMENT SHOWS

Treasurer's Report Sets Cost of Government at \$16,856.74

The cost of village government in Antioch, exclusive of special assessment accounts, totaled \$16,856.74 during the fiscal year just closed, it is revealed by the statement of former treasurer, Clarence Shultis, whose term expired April 30. The well-prepared financial statement which appears in this edition of the News, indicates that revenues during the year more than kept pace with disbursements, for collections from taxes, services, etc., swelled the village income to \$16,917.30. Not only did the income exceed disbursements, but there remains as balances in the various funds a total of \$2,270.61 which has been turned over to Treasurer Russell Barnstable.

The largest fund handled by the village is the general fund, which last year involved the handling of \$6,148.83 in revenue including the \$603.60 balance brought forward from the preceding year. The \$6,066.97 in expenses included such major items as light bills, trustees' and officers' salaries, purchase of Antioch hotel fixtures, and taxes and interest on this village property. The general fund had a balance of \$81.86 at the close of the year. Important items of income for this fund were \$1,750.00 received for liquor licenses and \$2,698.97 taxes received from the county treasurer.

The Road and Bridge fund, which started the year with a deficit of \$113.17 had an income of \$2,002.81 from taxes and the sale of vehicle licenses. Expenditures for street oil and officers' salaries totaled \$1,850.77, and the year closed with the fund showing a balance of \$38.87.

Water Dept. Best Earner. The water department, the best earning department of village government, showed receipts of \$4,410.80 to add to the opening balance of \$84.78, and the fund still had a balance of \$1,052.98 at the end of the year after having transferred \$800.00 of its earnings to other departments.

The fire department fund received \$1,881.36 from taxes and services of the fire department. Operation, salaries, insurance and investment in postal savings accounted for the expenditure of \$1,817.44. The year ended showing a balance of \$207.81.

The library accounted for \$399.46 expenditures as against receipts in the amount of \$476.98. There remains a balance of \$77.52, which will be turned over to the newly formed township library district.

The public benefit fund and the bond and interest fund each handled amounts less than \$500.00 in the payment bonds and interest; and the Harden and Spafford street fund and arterial highway fund No. 3 has to do with the receipts and expenditure of refunds from the state gas tax for local improvements.

Special Show Progress. Besides the amounts involved in the regular business of the various departments, the village handled \$8,397.56 in its 12 special assessment funds. All these showed marked progress in collections, even the three which began the year with deficits.

Special assessment No. 17, indicated "in the red" lowered its deficit from \$217.69 to \$79.41 during the fiscal year. No. 19 got on the right side of the village ledger with a balance of \$141.43 after having begun the year with \$80.19 deficit; and No. 20 reduced its deficit from \$153.50 to \$80.77.

Citizenship Award. Following the presentation of diplomas, Miss Bertha Petersen was awarded the "Good Citizenship" medal offered each year by the Daughters of the American Revolution. The presentation was made by Miss Elizabeth Webb, member of the National Delesee Committee of Waukegan Chapter of the D. A. R. This award is made annually to high school senior girls upon their qualities of dependability, service, leadership and patriotism. Recipients for the honor are determined by vote of the senior class and the high school faculty.

Walt's Barber Shop Moves to New Room

Walter Baethke has moved his barber shop from the basement to the first floor of the Bock building at 909 Main street. The room has been redecorated and new floor laid, new chairs and fixtures have been added, giving the place a very inviting appearance.

Art Bock, formerly occupying the first floor, has moved his plumbing supplies and shop to the basement.

Two Drown in Long Lake as Boat Upsets

Chicago Youths Lose Lives During 40-Mile Gale

Lake county's 1937 drowning death toll was raised to four Sunday when two Chicago youths died for a holiday at Long Lake were drowned when their boat capsized as they were changing rowers during a 40-mile gale which swept the lake.

The two youths drowned were Matthew Jacek, 20, of 4610 S. Wolcott st., and Henry Gedrimas, 21, of 4622 S. Wood st., Chicago, who had come to Long Lake with a party of friends for an outing. Both men sank before rescuers could reach them. The bodies of the two were recovered and the drowning was held accidental at the inquest conducted by Dr. Maurice Penny, deputy coroner. The bodies were taken to Chicago for funeral services.

156 Drowned in Eight Years. The record of drownings in Lake county over a period of years is alarming. In eight years 156 persons have lost their lives in Lake county waters, and the pathetic feature of this death toll is the fact that nearly all of these deaths could have been prevented had the victims been aware of their danger or had known how to swim. It is thought that all live-saving agencies in the county will prepare to render immediate first aid in all cases and that steps will be taken to cut down this alarming death toll. Lake county's record is not enviable. Here it is:

1929—23 drowned; 1930—18; 1931—21; 1932—21; 1933—12; 1934—29; 1935—15; 1936—13; to date this year—1. Total 156.

450 ATTEND MILLBURN CHURCH DEDICATION

The dedication service of the new Millburn Congregational church Sunday afternoon was attended by over 450 people, who heard Rev. Ernest G. Guthrie, general director of the Chicago Congregational Union, preach the sermon, and Rev. Charles S. Laidman, of Chicago, conduct the act of dedication.

An interesting historical statement of the nearly century old church was given by the Rev. Samuel Holden, veteran pastor at Millburn; and the financial statement was read by Gordon Bonner, church treasurer. Musical numbers included anthems by the Millburn choir of 20 voices, solos and hymns by the congregation.

Praises Pastor Holden

"Only the hearty co-operation of the people of the parish in giving their time and support made the completion of the new building possible at this early date," a prominent member of the Millburn church said today. "The old building was burned January 12, 1935, and ground was not broken for the new building until July, 1936, and the cornerstone was laid Oct. 4, 1936. Great credit must be given Rev. Holden for his perseverance and patience in seeing the work through to completion. Through his previous experience in handling similar situations he was able to secure grants and loans from the New York Congregational Building Society and from the Chicago Congregational Union. His helpful interest in the project is appreciated by the people of his parish."

SEQUOITS VICTIMS OF NO-HIT GAME IN CONFERENCE FINAL

The Sequoit warriors were made the victims of a no hit, no run defeat at the hands of the Elmhurst high school baseball team in the final game of the season Friday at Lake Zurich. The count was 1 to 0.

Scheveder of Elmhurst struck out 10 batters while letting the Antioch lads down without the semblance of a safe hit. Madsen of the locals also pitched a great game, striking out 10 opposing batters and allowing but two hits, a feat that ordinarily would have meant victory for his team. El scored the lone marker in the seventh frame on a walk and a hit.

MAKE WORLD YOUR DEBTOR, PASTOR TELLS CLASS OF '37

Rev. L. V. Sittler Gives Wise Counsel in Baccalaureate Address

"Let your major concern be not what you can get from the world, but what you can give to it—make the world your debtor," Rev. Loyal V. Sittler, pastor of the Antioch Methodist church, counseled the graduates in his baccalaureate address at the Antioch high school auditorium Sunday evening.

As indicated from Biblical texts, the pastor pointed out the two ways of life as exemplified by Absalom, who reared for himself a pillar, and Jacob who dug a well. "Absalom in his lifetime had taken and reared up for himself a pillar which is in the king's vale, for he said, 'I have no son to keep my name in remembrance,' and he called the pillar after his own name."

The scripture quotation speaks volumes for Absalom's character, the speaker said. "There was no thought of using his gifts for generous and noble ends—he wanted to make the world serve him—to get for himself a great position, and to win a sounding name. How much better it is to leave a well, like Jacob left, and which is still one of the authentic landmarks of the Holy Land. When Jacob dug that well, he was doing a decidedly important task—provision of water, an essential factor in tribal life. Even today the storage of water is essential to the life of mankind. Wherever there is a source of good water, man makes his home. He who labors for the good of humanity serves his fellow men—he digs a well where weary, worn and tired men may drink."

"There are the two alternatives of life," the pastor declared. "Some leave pillars by life's wayside, some leave wells."

Money and property at best are but transitory possessions, and prominent position is often achieved at the expense of social good, the speaker continued, and none of these are proof of successful life.

Rev. Sittler drew from history such characters as Napoleon as illustrating the selfish, destructive career as compared with the incalculable contributions of men like Louis Pasteur. The latter, addressing a group of students not long before his death, said: "Young man, you may have the immense happiness of thinking that you have contributed in some way to the progress and good of humanity."

Concluding, the speaker exhorted his hearers not to go through life without Christ and the Christian religion. The address was a masterful plea for the more abundant life achieved only through righteous service to humanity.

SCHOOL ROMANCE BRINGS WEDDING

Miss Ruth Perry, Antioch Teacher, Is Bride of Prim. R. E. Clabaugh

Miss Ruth Perry, Antioch grade school teacher, daughter of Mr. and Mrs. H. H. Perry of Antioch, became the bride of her principal, Ralph E. Clabaugh, also of the local schools, in a ceremony performed Saturday by the Rev. L. V. Sittler at the Whedon Methodist church in Evanston. The couple were attended by Mr. and Mrs. Charles Frye of Berwyn.

Mr. Clabaugh has been principal of the grade schools in Antioch for the past six years, and Miss Perry has been a teacher here for two years. She is a graduate of the local high school and of Jacksonville college. Mr. Clabaugh is a graduate of the Eastern Illinois State Teachers College, and has a master's degree from the University of Illinois.

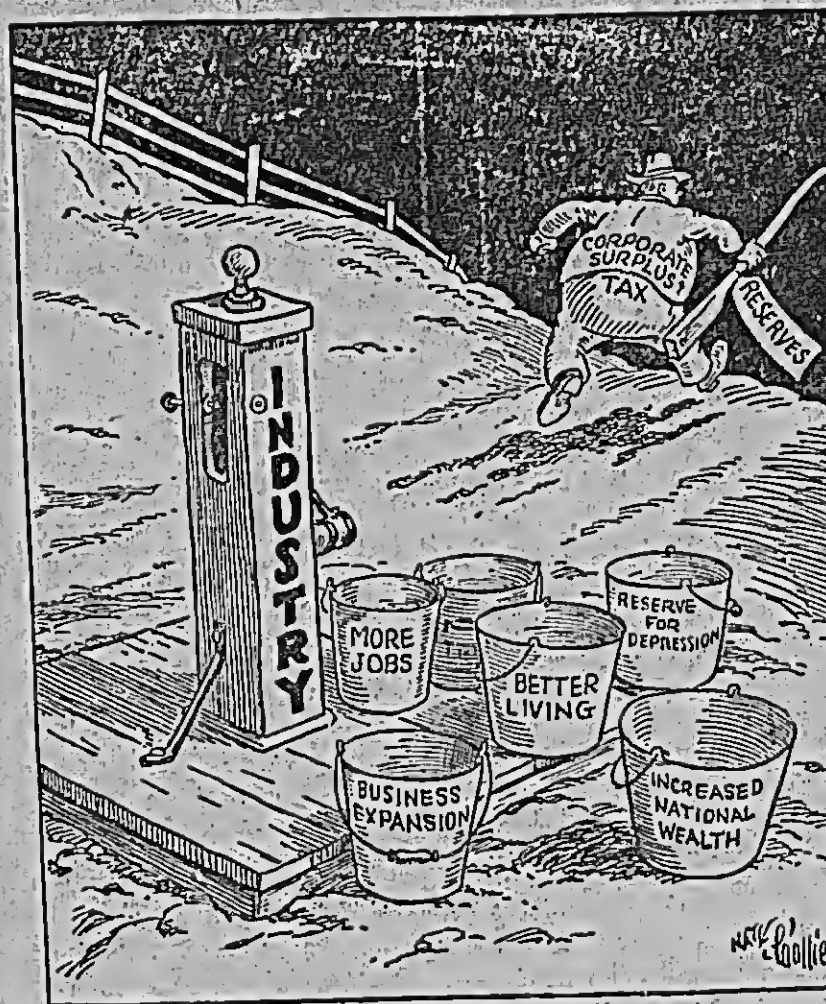

The couple left immediately after the ceremony for a short honeymoon trip through Michigan and southern Canada. Upon their return to Antioch they will make their home at 981 Victoria street.

Wrong Place

It's well and good for this country to care for its mentally incompetent, but it shouldn't fall into the habit of doing so by electing and appointing them to office.

An orator swung his arms and shouted, "Let's get rid of anarchy, Hitlerism, fascism, socialism, bolshevism, communism!" And an old man in a back seat said, "Let's throw in rheumatism!"

CAN'T PUMP WITHOUT A HANDLE

Bishop Confirms 23 in Service at Grayslake

An overflow congregation was present at St. Andrew's Episcopal Church, Grayslake, last Sunday morning when the Rt. Rev. George Craig Stewart, D. D., Bishop of the Episcopal Diocese of Chicago, confirmed twenty-three persons. The 11:00 o'clock service at St. Ignatius' Church, Antioch, was withdrawn. A large number of the local parishioners visited Grayslake and heard the bishop's inspiring message. The following nine candidates from Antioch were presented: Kathleen Fields, John Bernard Fields, Clara Lucille Waters, Carol Ruth Waters, Frances Catherine Zimmerman, William Donald Anderson, Louise Madeline Mueller, Harriet Winifred Goodell, and Lee William Strickland.

Parker Hazen, of Antioch, served the bishop as acolyte and was personally commended by the bishop for his efficient service.

The Grayslake and Antioch choirs united for the service, with Mrs. L. R. Van Patten as organist and Mrs. Earl J. Hays as soloist. Mrs. J. E. Charles had charge of vesting the girls and women in the confirmation class. Bishop Stewart expressed delight with the state of the work at St. Ignatius' and St. Andrew's.

Two Antioch Men Will Produce Hybrid Seed Corn

After a most successful year in producing hybrid seed corn, George White and sons have undertaken the production of a much larger tract of an Illinois Hybrid this year. Last year they were instrumental in securing crossing stocks from the University of Wisconsin through C. L. Kuttill of the Vocational department of the Antioch Township high school.

Another hybrid seed corn production project is under way on the Herman farm and is carried on by James Herman, formerly a student of the Agricultural department of the local school. A shortage of crossing stocks made the availability of seed difficult. Through efforts of the local school and the Future Farmers Chapter, Herman was fortunate in securing the necessary seed.

Mr. White's former experience in the production of certified hybrid seed assisted him in securing his supply this year.

Antioch Women Will Vacation in Alaska

Mrs. Chase Webb, Mrs. C. K. Anderson of Antioch, and Mrs. William Schlack of Chicago will leave Saturday for Portland, Oregon, where they will be joined by Mrs. Georgia Boswell of Los Angeles, and the quartet will embark from Seattle, Washington, via steamship for Alaska, where they plan to spend a month's vacation and sight-seeing. They will visit Lake Louise, and other points of interest in the Klondike region. The return trip will be made through the Canadian Rockies.

Encouraging

In one office the following encouraging notice to ambitious young employees is on view: "Work hard for eight hours a day and don't worry; then in time you may become a boss and work eighteen hours a day and have all the worry."

AWARD DIPLOMAS TO 51 AT ANNUAL COMMENCEMENT

Dr. Frank Holt Advises the Graduates in Address

Dr. Frank Holt, dean of the extension division of the University of Wisconsin, speaking here Monday night at the twenty-second annual commencement exercises, propounded three vital questions to the members of the class of '37.

Speaking of the first question, what is success, Dr. Holt discarded the somewhat widespread idea that money is a measure of a successful career. "Financial well-being," the speaker said, "is, or should be, a by-product of some useful service rendered to humanity."

Answering his second query, Dr. Holt maintained that democracy is decidedly worthwhile, and urged the graduates to prepare themselves to do their part in maintaining our free form of government. His third question had to do with the religious phase of life and his conclusion was that religion is vitally important to a balanced and useful existence.

51 Receive Diplomas

Fifty-one boys and girls received their diplomas from George White, president of the board of education. The musical numbers under the direction of Hans Von Holweide, included selections by the high school band and chorus groups of the high school.

The graduates are:

Alfred Anderson, Kenneth Brown, Robert Christensen, Albert Drevoll, Everett Galiger, Robert Griffin, Willis Griffin, Ambrose Griffith, Harold Groebli, Otto Hanke, Calvin Harden, James Herman, Arthur Houghton, Leslie Houghton, Ted Larson, Russell Luedtke, Robert Madsen, Charles McCormack, Robert Madsen, Cameron Mitchell, Donald Minto, Robert Mortensen, Harry Nesom, Clarence Rosenstock, Conrad Sheek, Warren Sheehan, Richard Syster, Roger Thill, Jayne Almer, Wilah Bacon, Leone Buehta, Andrea Dalgaard, Fern Dibble, Pearl Edwards, Doris Fitzgerald, Jean Hughes, Clee Jackson, Loretta Looper, Margie Houghton, Dorothy Meyer, Virginia Norman, Lorraine Pape, Phyllis Mount, Bertha Petersen, Alice Riordan, Clara Sherwood, Mary Lou Sibley, Valerie Wilton, Eleanor Zilke, and Lillian Overton.

"Dal-Ray" Grocery, New Firm Name for Local Food Store

Purchase of the Powles Food Store by Ray "Bud" Van Patten and Arthur Dalziel was announced last week by the purchasers who plan to change the name of the establishment to "Dal-Ray" Grocery, and continue business in the same location on Lake street.

Both young men have had more than five years experience in the grocery business as clerks and are familiar with the handling and sale of all food products. Dalziel at present is with the service department of the General Electric company, and he plans to take over his share of the work in the store next week. Meanwhile "Bud," who has been employed in the store for the past three years, is carrying on the business.

Frank Powles, former proprietor and owner, will give his entire attention to his market, located next door to the grocery.

Lumbermen Plan Golf Meet Here

Invitations to the 21st semi-annual lumbermen's golf tournament to be held at the Chain O' Lakes country club Thursday, June 24, were sent out this week by Ed F. Vos, chairman of the committee on arrangements. Lunch and dinner will be served at the club-house as usual and a number of prizes will be awarded to winners in the various events.

Serving with Chairman Vos on the committee are Rush E. Hussey, Dan Boyer, Tom Meade, Sid Sennott, V. B. McKee, Al Mordue, C. E. Pennington, Hank Brailford, Bill Brandt, Les Wallack, and Kyle Davis.

The semi-annual tournament in recent years has become quite popular among lumbermen and building material dealers, and usually about 150 attend.

MONDAY IS FLAG DAY

Monday, June 14, is Flag Day, and while there will be no ceremonies here, the American Legion officials have made request that citizens of this community display the flag on that day.

No, a penny in the collection hardly counts as a down payment on a harp.

Encouraging News

The recent announcement that the U. S. Patent Office has operated at a profit for the last three years and now has on hand a surplus of half a million dollars is of far greater importance to millions of Americans than the mere figures involved.

For in these cold figures lies proof that American inventive genius is more actively at work than ever before—providing new jobs for millions of workers and a higher standard of living for all of us—writing America's future in the blue prints on file in Washington.

Great industries today were mere drawings in the Patent Office yesterday. Stainless steel, modern chemicals, safety glass, mechanical refrigeration, radio, air conditioning—today employing millions of people; are but a step removed from the laboratory of science and industry.

And industries already great, by research and study, are devising new uses for their products which in turn may encourage and stimulate entire new industries. Oil, for example, not only furnishes direct employment for a vast army of workers in the oil fields and refineries, but by a constant and costly program of research to discover new uses for oil and improvements on the product, have made it possible for other industries to grow to enormous proportions. One need only think of automobiles and aviation in that connection.

Every patent granted holds untold potentialities for national improvement. None can foretell what the results of industrial research and production will be in the way of new jobs and increased human comfort. That is why Patent Office figures are so encouraging. They furnish fresh proof that science and industry, teamed together, are on the threshold of new marvels—building a new America.

Death Is Permanent

The destruction of the Hindenburg has once again brought before the eyes and minds of the world the terror of sudden, uncontrollable fire. Millions of persons, reading the news accounts and viewing the ghastly photographs of the doomed airship and its victims, have been gripped by a shudder of horror. Not so long ago the New London school disaster resulted in a similar mass reaction.

The unfortunate part of it all is that these lessons are so quickly forgotten, and that a large part of the public virtually refuses to adopt safety measures of long standing need, which would prevent thousands of individual tragedies whose cumulative total of death, injury and property damage is infinitely greater than that caused by the infrequent major disasters that are headlined in the newspapers of the world.

For example, six thousand persons in the United States—exclusive of the 1,500 who die annually in

burning buildings—die yearly of burns and scalds, and practically every one of these deaths is preventable. Children are the principal sufferers, thanks to the carelessness of adults. Unprotected stoves and grates, hot water, steam, and matches are the principal objects which quickly become lethal weapons of death at the innocent exploring touch of a child's hand. Among adults the practice of starting fires with kerosene and gasoline is well in the fore as a producer of fatal burns, and as a destroyer of property.

Death by fire is just as painful and horrifying—whether it occurs in a home or in a spectacular disaster. Think of this before you throw kerosene on that balky fire. Remember, death is a permanent proposition, and no amount of money will bring back life to a charred body.

Flag Day

June 14 is Flag Day.

It is more: it is the one hundred and sixtieth anniversary of the adoption of the American national emblem by the Continental Congress on that memorable fourteenth day of June, 1777.

"We take," said General Washington in approving the Stars and Stripes as the official flag of the United States of America, "the stars from Heaven, the red from our mother country, separating it by white stripes, thus showing that we have separated from her, and the white shall go down to posterity representing Liberty."

The world has never known a banner more humble in its origin, yet more daring in its conception, and more eloquent in its appeal to the hearts and minds of men the world over.

It is the symbol of the hopes, the aspirations, the struggles, the sufferings, the victories, the happiness, the progress—in short, the very lives—of more than one hundred and twenty million people.

Citizenship in the United States means loyalty to the Stars and Stripes. Indifference to the national emblem is akin to contempt. Contempt for the colors is the seed plot of treason and the soil of anarchy. Ignorance of it is the mother of vice. Therefore, on this day may each one of us reaffirm our allegiance to our flag by making the following pledge:

"I pledge allegiance to the Flag of the United States and to the Republic for which it stands. One nation, indivisible, with Liberty and Justice for all."

Farmers Have the Power

As Governor Lehman of New York recently said: "The farmers have all the power to solve every major problem." This power lies in cooperative organization to dispose of farm produce to the best advantage, and to raise it most economically and scientifically.

It is a fact that the tens of thousands of farmers belonging to well established marketing cooperatives have gone far ahead of unorganized farmers in the last decade. Such cooperatives provide what individual farmers lack—mass bargaining power, equal in size and strength to that of wholesalers and distributors. They place the farmer on an even footing with those to whom he sells. This has been one of the most encouraging phases of agricultural development in recent years.

LAKE VILLA

The Ladies' Aid Society held its annual election of officers at its regular meeting last Wednesday at the Swanson home and the following women were installed as officers: President—Mrs. Fred Hamlin; vice president—Mrs. A. McGlashan; Secretary—Mrs. Paul Avery; and Treasurer—Mrs. J. A. Pedersen. The ladies have already outlined work for the coming months and will hold a summer sale on Friday afternoon and evening of August 13th. They have already arranged for a bakery sale on Saturday morning, June 12, at the Van Buren sales room and you will be able to secure home baked cakes, cookies, etc., at moderate prices.

Children's Day will be observed next Sunday at the Community church by a short program by the smaller children and a short service by Rev. DeSelmus as this is his last Sunday with this church. Sunday school will be held at the usual hour of ten o'clock, followed by this special service at eleven o'clock. You are very welcome.

Mrs. Clara Wilton and daughters are keeping house for Howard Wilton. Miss Lorraine Hooper has completed her freshman year at the University of Illinois and is home for her summer vacation.

Mrs. Carl Ekdahl entertained a girl friend from Des Moines, Iowa, the first of the week. They had been classmates at Normal, Illinois.

Mr. and Mrs. Richard Gates of Libertyville were guests of the party.

The Ladies' Aid Society will meet Wednesday afternoon, June 16th, with Mrs. Hooper at her home and all are welcome.

Miss Pauline Nader has gone to Superior, Wis., to spend the summer with her sister, Mrs. Almquist; there, Mrs. Fred Hamlin entertained a few of Bruce's little friends at a party Monday afternoon to celebrate Bruce's eighth birthday.

Mrs. Erwin Barnstable is in St. Therese hospital recovering from a major operation performed last Saturday; and at last reports is doing as well as could be expected.

Mr. and Mrs. Ed Tiede and daughter spent last Friday with relatives in Chicago and Miss Barbara remained

for a few weeks with her grandmother.

Louis Edward Kratz was confirmed in the Community church at Round Lake, Illinois, on Sunday and his parents, Mr. and Mrs. R. L. Tanner, gave a reception in his honor at their home. The following guests were present: his sponsor, Mr. Herman Greath, his wife and daughter, Florence of Chicago, Mrs. W. Ruf and daughter, La Verne of Tiffin, Ohio. Mr. and Mrs. A. Doeckman and their daughter, Esther, Mr. R. Smith, Mr. W. Wolf, Mr. and Mrs. R. Wilkin, Mr. and Mrs. L. Test and son, Louis, also a grandnephew and grandniece, Mr. and Mrs. F. Lorenz, all of Chicago. There was a grand dinner and Louis received many wonderful remembrances.

The Belgian Congo

Although politically the Belgian Congo is a dependency of Belgium, it is really just the opposite. Eighty times larger than Belgium, it supplies the mother country with all its coffee, gold, copper, tin, diamonds. It is one of the world's few sources of pitchblende from which comes radium. In the heart of "darkest Africa," Belgian Congo is far from dark.

VicinityMRS. HANSON HONORED
WITH SHOWER

Misses Adelle Miller and Agnes Christensen, were co-hostesses at a miscellaneous shower given in honor of Mrs. William Hanson Thursday evening at the home of her parents, Rev. and Mrs. L. V. Siler, on Lake street.

Mrs. Hanson received miscellaneous gifts from the thirty-eight guests present, who enjoyed playing games and a short program of solos and readings by Miss Nora Arnold of Grayslake and Miss Ruth Oua Nelson of Fox Lake. The dining room was beautifully decorated with spring flowers and an outstanding feature was the lovely bridal cake made and decorated by Mrs. Gordon Martin of Lake Villa.

LA VERNYNE BOYLE IS BRIDE OF ROBERT PETERSON
Miss LaVernyne Boyle, daughter of Mrs. Edward Larner of Chicago, became the bride of Robert Peterson, son of Mr. and Mrs. Antone Peterson of Antioch, Saturday, June 5th, at a ceremony performed in Chicago by the Rev. Father Fitzgerald, at the Queen of Angels Church.

The bride wore a gown of white chiffon with a finger tip veil and carried a bouquet of white roses and sweet peas. Mrs. Irving Botelien, matron of honor, wore a gown of coral chiffon and carried yellow tea roses. Marty Boyle, brother of the bride, acted as best man.

CHRISTIAN SCIENCE CHURCHES

"God the Only Cause and Creator" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, June 6.

The Golden Text was, "In the beginning God created the heaven and the earth" (Genesis 1:1).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Ye are my witnesses, saith the Lord, and my servant whom I have chosen: that ye may know and believe me, and understand that I am he: before me there was no God formed, neither shall there be after me: I am the Lord, your Holy One, the creator of Israel, your King" (Isaiah 43:10, 15).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "The Scriptures testify that God is All-in-all. God is individual, incorporeal. He is divine Principle, Love, the universal cause, the only creator, and there is no other self-existence" (p. 331).

FORD "60" OWNERS REPORT
22-27 MILES PER GALLON

THE 60-horsepower Ford V-8 is writing remarkable mileage records on American roads. Private owners and fleet operators alike report averages of from 22 to 27 miles on a gallon of gasoline.

You can fill the tank of your Ford "60" and drive all day—300 to 400 miles—without stopping again for fuel. Besides costing less to run than any Ford car ever built, it sells at the lowest Ford price in years. That's double economy!

The "60" delivers V-8 smoothness and quiet at speeds up to 70 miles an hour. It is built into the same roomy body as the famous "85"—with the same modern features of comfort and dependability that make the 1937 Ford V-8 unquestionably THE QUALITY CAR IN THE LOW-PRICE FIELD.

Ford V-8 "60"

FORD V-8 PRICES BEGIN AT \$529 at Dearborn Factory, Transportation charges, State and Federal taxes extra

This price is for the 60-horsepower Coupe, illustrated above, equipped with front and rear bumpers, spare tire, horn, windshield wiper, van visor, glove compartment, and ash tray.

\$25 A MONTH, after usual down-payment, buys any model 1937 Ford V-8 Car—from any Ford dealer—anywhere in the United States. Ask your Ford dealer about the easy payment plans of the Universal Credit Company.

HITS AT KENOSHA'S FIRST RUN THEATRES

Kenosha's first run theatres, the Kenosha and the Gateway, are getting underway with their "hit parade" of big programs for the summer months. Hollywood never before offered such great pictures and so many big names in the casts of these pictures as they have during the current movie season, and best of all, the truly big hits are just beginning to be released from the major studios, and they promise to continue throughout the summer.

The Kenosha theatre opens Friday with Robert Taylor, Barbara Stanwyck, and Victor McLaglen (three of the biggest stars in the Hollywood heavens) in one grand screen triumph, "This Is My Affair."

The usual policy at both of these theatres is double feature programs and the second one to be seen at the Kenosha is exciting, adventurous and one that takes the breath away and makes your hair stand on end when the thrilling air scenes in "Criminals of the Air" come crashing onto the screen. The cast includes lovely Rosalind Keilli and Charles Quigley, a newcomer who is steadily climbing to the top in the cinema world.

The Gateway offers no exception to the parade of hits, as they open Saturday with two very fine comedy features that are sure to send you home in the best humor you've been in for months. The first is "Go Getter," a story about a guy who just didn't know when to stop when he wanted something.

Opening Wednesday at the Gateway is a picture that will positively be among the "greats" of 1937 and stars an entirely new Robert Montgomery in "Night Must Fall." His leading lady is Rosalind Russell. Also on the same program is "Meet the Musses" with Helen Broderick and Victor Moore bringing more laughs.

past week at the home of the latter's brother, Harry Herrick.

Mrs. C. E. Denman, who spent a month with her sister, Mrs. Nettie Dowden in Washington, D. C., returned to the home of her daughter, Mrs. W. A. Bonner, Saturday.

Mortuary Record

Mrs. Julia Faber Dicks

The village was shocked Saturday morning to hear of the very sudden passing of one of its prominent citizens, Mrs. Julia Faber Dicks. She had been in her usual health and had visited relatives in Chicago earlier in the week. She was born April 26, 1868 in Chicago and had lived there all her life until after her marriage to C. B. Dicks when they bought property and moved to Lake Villa about 38 years ago. They always took an active part in the life of the community and Mr. Dicks was president of the village board for some time. The death of their only son, C. B. Dicks, Jr., about thirteen years ago, was a great sorrow, and since the death of Mr. Dicks about seven years ago, Mrs. Dicks has lived alone. Two years ago she sold her big house to a German Old People's home. She was the last of a family of four daughters and one son, her only brother, Louis Faber, dying only six weeks ago. She was a member of the German-American club, the Woman's club and P. T. A. The funeral was held Monday morning at St. Peter's church at Antioch, and burial was in St. Boniface cemetery in Chicago beside her husband and son. She leaves a number of nieces and nephews and other relatives.

Higher Than Niagara

Big Manitou falls on the Black river of Northern Wisconsin, called the Falls of the Great Spirit by Indians, is higher than the Canadian falls at Niagara.

Pheasant's Plumage Changes

A world-famous naturalist who has made a study of the subject asserts that the plumage of all species of the pheasant family becomes more brilliant during the mating season. Even the iris of the eye becomes more attractive.

Spices From the Tropics
Pepper grows in clusters of small round berries on a vine that is widely cultivated in the Netherlands East Indies as well as in India and other parts of Asia. The berries are picked before they are fully ripe and laid by the sun to dry. They become dark and black looking, as seen in can of whole peppers. White pepper, which is popular for salads and other light foods where specks might be objectionable, is made from the same berry after the outside dark skin has been rubbed off. It is much milder than black pepper, because the chief flavoring oils are more predominant in the outer coating than in the inner berry.

Bump of Firmness
Firm-willed, obstinate folks have a very well-formed bump high up on the crown of the head. In some cases, says a phrenologist in London Answers Magazine, a highly developed bump of firmness means that its owner will gain success through sheer determination and persistence; in others it may mean that there is unreasonable persistence and obstinacy. But unless you have quite a pronounced bump here you have no will of your own. Just behind this is the bump of self-esteem. Moderation, as you can guess, is very necessary with a bump of this nature. You need just an average-sized bump here.

Leopards Love to Fight
Leopards are the slyest and most ferocious of the big cats, but they are too light of weight to be a serious threat to their cousins, the lions and tigers. Their one great quality is a love of fighting.

Curls on Head of Buddha
The Great Buddha at Kamakura, Japan, wears 830 curls upon its majestic head; these curls, according to legend, represent snails which once crawled upon the original deity to shelter his bald head from the sun.

Cuttlefish an Octopus
A cuttlefish is not a fish—it is an octopus.
